Team 7:
Saskia, Moritz, Quinten, Stefan, Carlia

22.07.2017

Problem identified:

People don't pick up their dog's shit in Berlin.

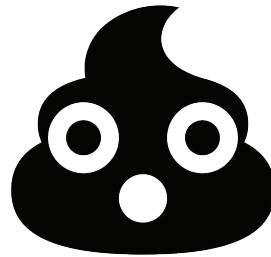

Question:

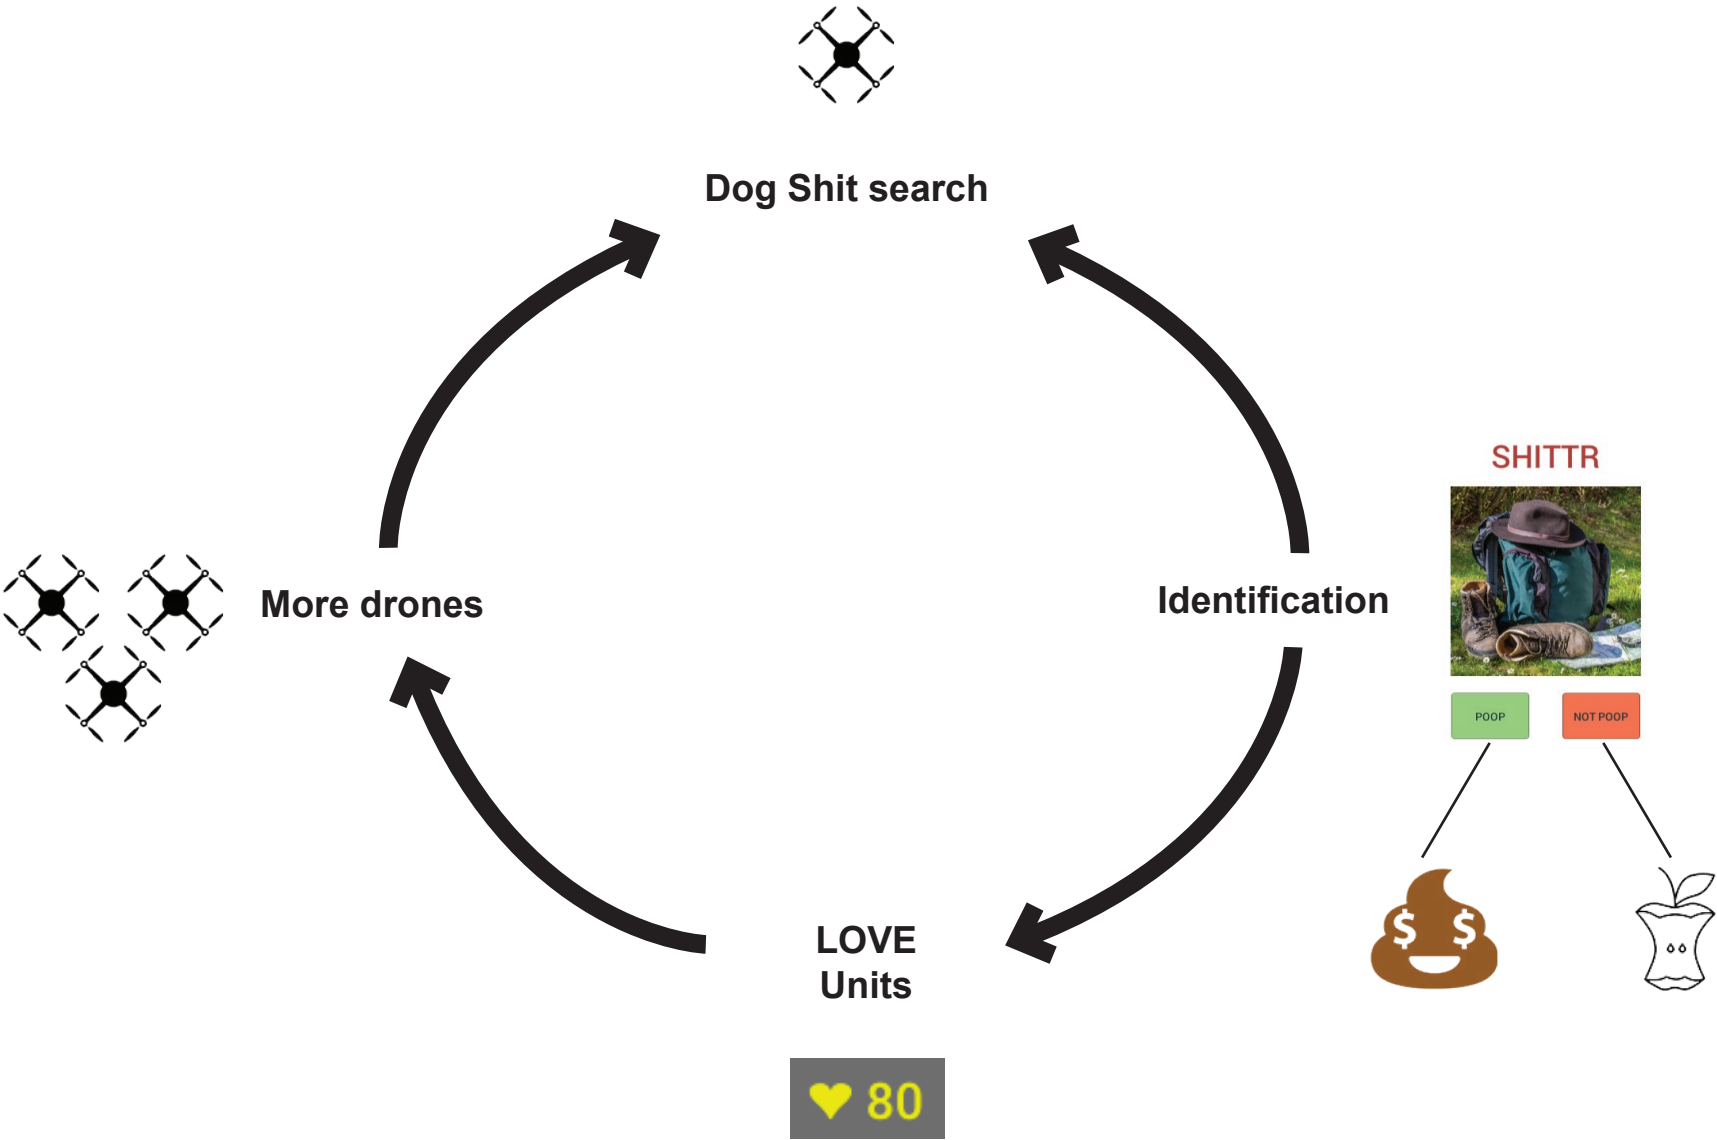

Do people lack ownership and sense of community within urban spaces?

Game Scenario:

The advancement of artificial intelligence has caused humans to be redundant within the workforce.

Humans have been granted the important role as Dog-Shit Identifiers.

Potential Civic Gaming outcomes:

People more aware within their urban environment

Empathy towards our future selves.

A discussion of the relationship between human productivity in a AI age.
